

Post-production Film Intern
Summer 2010

Plant With Purpose, an international nonprofit organization that helps the rural poor, seeks a post-production film and media intern for the spring semester. The intern will create multiple short media clips from raw footage that has been collected internationally from our programs in the field.

Responsibilities:

- Review and catalog footage from the field
- Use Final Cut software to create low/medium/high production value videos to increase Plant With Purpose's content output through social media platforms.
- Produce approximately one 1-3 minute video every one to two weeks
- Work with program staff and volunteers on translation when needed
- Bring industry standards for organization of media.
- Collaborate Plant With Purpose youtube channel and vimeo site with current social networks

Requirements:

- Preferably working toward a degree in film production, advertising, graphic design, marketing or a related field
- Strong knowledge of Mac OSX, Final Cut Pro, and Adobe Creative Suite software
- Creative initiative to generate compelling and meaningful videos that tell the stories of rural farmers.
- A heart for helping the poor
- Experience in non-profit film production a plus
- Knowledge of HD compressing a plus

Please send your resume to Corbyn Small at corbyn@plantwithpurpose.org.
